

Parents, please write your initials in each box once you have heard your child read, plus any short comment. Longer comments can be written on the reverse of this card.

Your child should read and not sing or chant. Read as much as you wish from each passage, but you need not exceed 5 minutes per day. The key is 'little and often.' You may certainly use translations to help you understand and discuss the texts; but remember that the main object of this exercise is reading practice, so that should be the focus. Understanding is a great bonus, but secondary.
